

## **ES policy on promoting other (non-ES) activities**

1. It is the responsibility of the ES committee to decide which activities should be promoted at ES. Any requests for promotion should be directed to the ES committee, and the committee will make the decision according to the policy. No member of the committee is obliged to bring an event to present it to the committee if it doesn't fit the criteria.
2. The primary consideration is whether or not any activity is aligned with the ES Doctrinal Basis and the 3 core objectives of:
  - personal faith in Jesus Christ as Saviour and Lord
  - personal growth in godliness
  - personal witness at home and abroad
3. In general, any activities that clash with ES activities will not be promoted.
4. The degree to which an activity affects and is open to the whole of ES is an important consideration.
5. a) The means and method by which an activity is promoted will be considered, including
  - announcements at lunchtime meetings
  - group emails
  - website

b) There will be no verbal announcements of non-ES activities at lunchtime meetings.
